

The following fonts are needed for proper display of the Arabic text in Microsoft Word. These fonts help to display the Arabic vowels (Tashkilat) properly.

Please copy these fonts under the fonts directory of your windows installation which is usually found under (c:windowsfonts)

1. [Awema](#)
2. [Usama Naskh Light](#)
3. [Usama Naskh Bold](#)

If you encounter any technical problem, please email the webmaster of the [Arabic Bible Outreach Ministry](#)
